New Carrollton Business Association Gets off to a Great Start!

On Tuesday July 28, New Carrollton business owners met at TD Bank to launch the New Carrollton Business Association. Over 30 members of the business community met to network, share referrals and learn about recent economic development activities along Annapolis Road. Members discussed new development planned around the New Carrollton Metro Station, two future Purple Line light rail stations and grant-funded improvements that will help market the City as a local and regional shopping and entertainment destination. In addition, the meeting provided an opportunity for local business owners to talk with the Mayor and City Council, as well as representatives from the Prince George's County Economic Development Corporation, the Maryland Department of Housing and Community Development and County Councilmember Dannielle Glaros' office.

Big thanks to TD Bank for hosting the meeting in its lobby and to Stonefish Grill for generously donating food for everyone's enjoyment!

The New Carrollton Business Association (NCBA) is free and open to all licensed businesses located in the City. Future meetings will include opportunities for business owners to discuss improvements along Annapolis Road, meet with local officials and advocate for business interests in New Carrollton. NCBA meetings will be held monthly – contact Susan Hartmann, Economic Development Coordinator (**301-459-6100**, shartmann@newcarrolltonmd.gov), to add your name to the list and stay tuned for details about upcoming meetings! Keep your eye out for the NCBA logo at participating businesses!

NOTICE OF PUBLIC HEARINGS FOR PROPOSED FISCAL YEARS 2017–2022 CAPITAL IMPROVEMENTS PROGRAM (CIP)

WSSC will hold two public hearings on the Proposed Capital Improvements Program (CIP) for Fiscal Years 2017 through 2022 which commences July 1, 2016. The six-year CIP proposes planning, design and construction expenditures for major water and sewer projects. The hearing dates and times are as follows:

Montgomery County

Wednesday, September 9, 2015 - 7:30 p.m.
Stella B. Werner Building, 7th Flr. Hearing Rm.,

Please contact the Commission as soon as possible at 301-206-8200 if your attendance at a meeting will require an accommodation under Title II of the Americans with Disabilities Act.

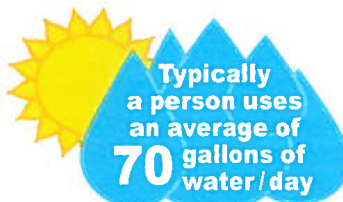

After public comment, the CIP will be transmitted to the County Executives and County Councils by October 1, 2015.

Copies of the preliminary draft of the FY2017–2022 Capital Improvements Program will be available on the WSSC website at www.wsscwater.com/budget, at the WSSC Communications & Community Relations Office, 14501 Sweitzer Lane, Laurel, MD 20707, or by phone at: 301-206-8100 by August 21, 2015. I use how much water?

WSSC customers may find that their average daily consumption (ADC) is higher because as the temperature rises, we tend to use more water. Lawns, flowers and kids love water! We fill the pool, run through the sprinkler and tend to our yard or garden.

Typically
a person uses
an average of
70 gallons of
water / day

Outdoor watering =
Increased water
consumption

The standard 5/8" garden hose can use up to **1,020 gallons per hour**. Be sure to turn it off when not in use.

The average irrigation system uses
about 16 gallons/minute (gpm).

Watering Minutes
x No. of Stations/Zones
= Total Minutes

Total Minutes x Gallons per min. = Total Gallons per cycle

Total Gallons x Number of days per month you water
= Total gallons used per month

Example: 8 stations, watering twice/ wk. and each station runs for 15 minutes. **That's 1,920 gallons per day.**

Kids outside playing in the sprinkler or pool can mean more water usage.

If you use a lot of water OUTSIDE, consider installing a sub-meter.

A sub-meter measures water used outside and might be cost effective

because you will not pay sewer charges. Your bill's Sewer Usage would reflect only the "household" or inside portion for consumption. You will need to contact a Registered Master Plumber to determine the on-site plumbing requirements.

Visit www.wsscwater.com/conservation for detailed information

Be aware that water is one of the most valuable natural resources!

Now that schools are back in session it's important to share the road safely with school buses.

- School buses are one of the safest forms of transportation on the road today.
- In fact, according to the National Highway Traffic Safety Administration, riding a bus to school is 13 times safer than riding in a passenger vehicle and 10 times safer than walking to school.
- The reality of school bus safety is that more children are hurt outside the bus than inside as passengers.
- Most of the children who lose their lives in bus-related crashes are pedestrians.
- Four to seven year old children, get hit by motorists illegally passing a stopped school bus.
- For this reason, it is necessary to know the proper laws and procedures for sharing the road safely with school buses.

All 50 states have a law making it illegal to pass a school bus that is stopped to load or unload children.

All 50 states require that traffic in both directions stop on undivided roadways when students are entering or exiting a school bus.

What to Do in an Emergency:

When you or a loved one suffers a life-threatening medical emergency or injury, you know to call **911**.

When accidents happen you often need to act quickly, but in the terror of the moment it's easy to become confused and disoriented. That is why is recommended that you prepare for an emergency before it happens by gathering all the information you'll need to provide the **911** operator . Your street address, apartment number, and closest cross street, and a call-back number, in case emergency personnel have additional questions.

Post **911** information on your refrigerator or near the telephone, along with emergency numbers and contact information for physicians, family members, and close neighbors. Make sure that everyone in your family knows about the **911** checklist, and be sure to point it out to your babysitter, housekeeper, relatives, and house guests.

POLICE NEWS

What To Do After a Car Accident

Things can be chaotic immediately after a car accident but following some basic steps can make filing your claim a little easier.

- Think about your safety and those around you before thinking about insurance; if someone is injured call **911**.
- Stay calm; being in a car accident is scary but getting upset will make things worse.
- There's no need to call the police if you only have a dinged bumper or a scratched door.

Being prepared can prevent stress after an accident. Keep a copy of your insurance information and a pen and paper in your car; it will make the post-accident process much easier. Since most mobile phones come with a camera, take a photo of the scene, after you are out of danger. You are required by law to have proof of your insurance with you, and insurers provide cards that carry all of your relevant insurance information do not move it.

After a crash, it's important to get to safety as quickly as possible

- Before you start gathering information from the other driver after a crash, it's important to get to safety as quickly as possible.
- If you had a minor fender bender, you don't have to leave the cars where they are. Often, the police will not come to file a report on a minor accident. Safely move out of the way of traffic, but if you can't move your car without causing further damage.

Watch What You Say After an accident

- You should speak to the other driver only to get his or her information and to make sure the driver is OK. Don't admit fault or say "I'm sorry" during your conversation, as it could be used against you in future proceedings.

Gather information for your insurance claim

Name, Address, Phone number, Email address, Make, model and year of the car, License plate number, Insurance carrier, and Insurance policy number.

Take photos, if you can

Damage to your vehicle, accident location, and probably people involved with the accident.

Get information from the police officer if one is on the scene

Name, Badge or ID number, Phone number, and Police report number.

Note: Neither the other driver nor the police will need your Social Security number; do not provide that number.

Public Works Information June and July 2015:

- The large amount of rain and hot weather has caused the grass to grow quickly and the ditch banks to be slick. This has caused a delay in the cutting process. It's the reason why some grass was higher than usual.
- The New Carrollton sign on Bicentennial Hill has been redone. The plants will now fill in to complete the job.
- Mr. Cochran thanks the Department of Public Works Park Crew and the Parks Supervisor Oscar Amaya for their work on the City's flower beds.
- Residents be aware that the Department of Public Works employees are now wearing new high visibility t-shirts, as a way to increase employee safety, as they work in and around the City roadways.
- Two recycling dumpsters for paper and cardboard have been placed by the community gardens 1) on Carrollton Parkway and 2) by Beckett Field on Westbrook Drive.
- **Mr. Cochran advised that the paper bin located at the Public Works Yard will be removed soon for safety reasons.**

Recicle sus bolsas de plástico limpias y secas a tiendas de alimento y otros negocios locales en lugar de colocarlas en su contenedor de reciclaje. Use bolsas reusables o cuando compre opte por bolsas de papel donde sean disponibles.

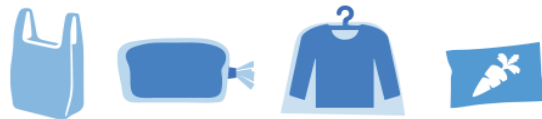

Efectivo el 01 de Julio del 2015, bolsas de plástico de cualquier color, tamaño o forma NO se aceptarán en el contenedor de reciclaje del Condado de Prince George's un Programa de una sola fuente de reciclaje residencial.

La instalación de reciclaje del Condado utiliza un sistema automatizado que ordena y empaqueta los materiales reciclables. Bolsas de plástico obstruyen la maquinaria y causa daños costosos y tiempo de inactividad. Además, bolsas de plástico contaminadas terminan como basura al mezclarse con el reciclaje de una sola fuente y causan desorden en nuestra comunidad y vertederos.

El Condado de Prince George's está liderando el camino para un futuro saludable y sostenible. Nos alegramos de que usted está en nuestro equipo! Si usted ha recibido este postal, califica para servicios de recolección de reciclaje. They don't call it "Fall" for nothing!

After admiring all the beauties of nature: the varieties of mums, the pumpkins popping up everywhere and the gorgeous changing trees, it's time to consider what to do about those falling leaves. Leaf accumulation on the ground will kill the grass you worked so hard to maintain all year. Furthermore, it will set up conditions leading to erosion, grading and drainage problems. Aside from leaf mold and other allergies, dry leaves are a fire hazard contributing to the rapid spread of fires, especially in a residential area. As if that were not enough, leaves accumulating in gutters and downspouts clog essential drainage which can result in wet basements and generally damping the holiday spirit.

Please, for your safety, comfort and good health:

- Take care to remove your leaves in a timely fashion.
- Follow the schedule for leaf pickup by the Public Works Department.
- Remember to use paper bags (**not plastic bags**).
- Remember to **RECYCLE**.

Prince George's Little Theatre, Inc. Presents

Once Upon a Mattress

Directed by Frank Pasqualino
Produced by Jenna Jones Paradis

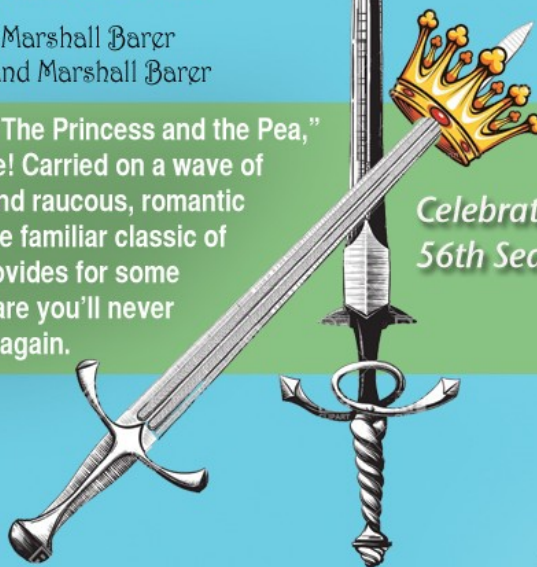

Music by Mary Rodgers, Lyrics by Marshall Barer
Book by Jay Thompson, Dean Fuller, and Marshall Barer

If you thought you knew the story of "The Princess and the Pea," you may be in for a walloping surprise! Carried on a wave of wonderful songs, by turns hilarious and raucous, romantic and melodic, this rollicking spin on the familiar classic of royal courtship and comeuppance provides for some side-splitting shenanigans. Chances are you'll never look at fairy tales quite the same way again.
