# Fund Balance Explanations:

In the fund financial statements, governmental funds report fund balances in classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

- The *nonspendable* fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.
- Restricted fund balances are amounts that are restricted to specific purposes when
  the constraints are externally imposed by creditors, grantors, contributors or laws or
  regulations of other governments; or imposed by the City Charter, City Code or
  enabling legislation.
- Committed fund balances are the amounts that can only be used for specific purposes pursuant to constraints imposed by formal action (ordinance) of the City's Council, the decision-making authority.
- Assigned fund balances the amounts that are constrained by the City's intent to be
  used for specific purposes, but neither restricted nor committed pursuant to the
  City Charter. The City's Council and the City Administrator are authorized to assign
  amounts for specific purposes.
- Unassigned fund balance is the residual classification for the general fund.
   The general fund is the only fund that reports a positive unassigned fund balance amount.

The City considers restricted fund balances to be spent for governmental expenditures first when both restricted and unrestricted resources are available. The City also considers committed fund balances to be spent first, assigned fund balances to be spent second and unassigned fund balances to be spent last when other unrestricted fund balance classifications are available for use.

**MISSION STATEMENT:** The City embarked on a program in 1990 to ensure the infrastructure would be maintained. Selection of streets for reconstruction is based on deterioration.

Deterioration is determined through inspections, and with a computer program, streets are ranked in order of repair need. To obtain optimal volume pricing, streets are repaired every three years while sidewalks are usually done annually. Public Works personnel are used to ensure problem areas are repaired and kept safe. Safety includes: maintaining traffic signs, installing drainage improvements, keeping bridges in good condition, and providing snow and ice removal.

#### **PROGRAM GOALS:**

- 1. Continue reconstructing City streets and sidewalks.
- 2. Continue to provide maintenance and safety for infrastructure.

### **Capital Expenses**

**01-3710-57150 Vehicle-Pickup Truck:** Purchase of a new four-wheel pickup truck for litter patrol.

#### PUBLIC WORKS GROUNDS MAINTENANCE: HORTICULTURAL MANAGEMENT

MISSION STATEMENT: To maintain the ornamental appearance of the City at a level of excellence that the City has enjoyed for decades. The City has received numerous beautification awards over the years attesting to this accomplishment. In the fall, ornamental beds are tilled and various bulbs are planted which are then over planted with cold tolerant flowers. During the spring, the bulbs are removed and given to City residents. Also, at this time the beds are tilled and planted with annual flowers. During early fall, other flowers may be used if the summer months have proven unkind to the flowers planted. In late fall, the planting cycle starts over.

#### PROGRAM GOALS:

- 1. To maintain the ornamental appearance at a level of excellence.
- 2. To continue to strive to win additional beautification awards.

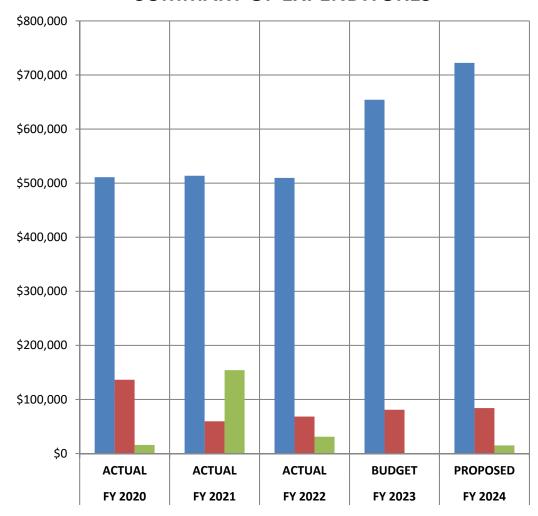

#### PUBLIC WORKS GROUNDS MAINTENANCE: URBAN FORESTRY MANAGEMENT

MISSION STATEMENT: The City has forty acres of turf in which five athletic fields and four tot lots are situated. In addition, there is a general-purpose park and Vita Course. Athletic fields are mowed weekly and the City's entrance and the Municipal Center is also mowed weekly. Carrollton Parkway, Powhatan Street, and Westbrook Drive and the Bicentennial and Veterans' Parks are mowed every two weeks. During the fall and spring, all turf areas are fertilized and limed. In addition, during the summer Westbrook Drive, Carrollton Parkway, 85th Avenue, Powhatan Street and part of Lamont Drive are edged. During the winter months, soil tests are made at each park and sent to the University of Maryland for analysis. Major repairs to park furniture are usually done during the winter months.

#### PROGRAM GOALS:

- 1. Continue to improve the working relationship between field-users and the City.
- 2. To sustain present maintenance practices.

#### **MEMORANDUM**

To: Mayor Rosenberg From: Chief David Rice

CC: Major William Everts

Tim George, City Administrative Officer

Subject: Commercial Special Taxing District Budget Input

Date: May 14, 2020

As we have discussed, it is important that the City clearly define the tangible "enhancements" that come with the commercial Special Taxing District. In order to provide a more accurate, and more defensible, calculation of cost, the recommendation is to move away from the current budget calculations and focus directly on the officers and supervisors and their daily/weekly activities within the commercial district.

After meeting with Major Everts, my command staff and patrol division on the issue, the following enhanced services were put in place, and currently being performed, when the commercial Special Taxing District was implemented. These services go above and beyond regular patrol activities and are intended to provide greater support and service to our commercial entities. Enhanced services include:

- Premise checks
- "Close up" watch
- Crime prevention visits/guidance
- Coffee with a Cop

The table below presents a breakdown of these services by average hours for the 16 patrol officers. The additional hours of command staff, CID and admin to support these enhanced services are included in the methodology through the calculation off of the total NCPD budget. Note that the enhanced services hours presented do not include standard patrol or normal police operations.

|                         |                           | <u> </u>   |
|-------------------------|---------------------------|------------|
| Enhanced Services       | Avg<br>Monthly<br>(hours) | Annualized |
| Premise checks          | 130.0                     | 1,560      |
| "Closing up" Visibility | 20.0                      | 240        |
| Coffee with a Cop       | 2.0                       | 24         |
| Crime Prevention Checks | 2.5                       | 30         |
| Other                   | 4.0                       | 48         |
| Total                   | 158.5                     | 1,902      |

Based on the total annual man hours for 16 patrol officers of 33,280, (16 \* 2080), this represents 5.72% percent of the patrol officer's time. Because the patrol department does not act in a vacuum and receives support from all departments and operations within the New Carrollton Police department, the ratio of costs has been applied to the full NCPD budget to calculate the share of the budget dedicated to providing enhanced services to the Special Taxing District.

The enhanced hours have also shifted a bit due to the NCPD's response to the COVID-19 pandemic

Applying the 5.72% share of services to the total FY21 proposed NCPD budget of \$3,870,322 yields a Special Taxing District budget share of \$221,194. This represents a modest increase from the costs detailed in the FY20 budget.

The City of New Carrollton, MD represented by the Department of Finance, Department of Information Technology and Department of Code Enforcement has been reviewing solutions to make the budgeting process less cumbersome and more effective and streamline the city's permitting process to make it more user-friendly via an Online Citizen Portal. After much consideration and evaluation, the staff recommends moving forward with OpenGov's integrated Budgeting and Planning Solution and Permitting, Licensing and Code Enforcement Solution. This solution is estimated to reduce staff time spent on the budget development by 30% - 50%, time spent on internal reporting by 50% - 80%, reduce freedom of information requests by 20% and reduce the amount of time it takes to process permits by 30% - 50%. It will also help to improve citizen engagement and customer satisfaction as the City's permitting process can now be completed entirely online.

The OpenGov platform will provide an end-to-end budget development solution and an online permitting solution that will drastically modernize and streamline the city's current processes:

The Budgeting and Planning tools will allow the City departments and budget staff to reduce manual and clerical efforts during the budgeting process, provide a central collaborative location to develop budget numbers and evaluate scenarios, project workforce and personnel costs, and ultimately provide an interactive financial transparency portal linked to the City's website.

The Permitting, Licensing & Code Enforcement Platform is a modern workflow automation platform that can be rapidly deployed to streamline community development operations, including permitting, licensing, code enforcement and inspections. With OpenGov, the City is modernizing the end-to-end permitting process from applicant submission to permit issuance. The City's residents and the business community can expect to have a similar experience applying for a permit as they would while shopping on one of the leading online e-commerce platforms today. For those individuals that would still like to apply in person, that will be available as well. Once the OpenGov platform is online, residents and businesses will be able to:

- Submit and pay for permits through an intuitive web portal
- Track and monitor the status of their applications; save in-progress application drafts
- Request inspections
- Review their historical permits, payments, inspections, and in-progress applications
- Message Town staff throughout the application approval process
- Receive and print their permits at home

An additional benefit of this platform is the inclusion of management reports and customizable dashboards that can be provided to City Council members, the Executive Team, and other City staff to track and manage various financial and non-financial metrics. Furthermore, OpenGov will also integrate with the City's existing accounting system to maximize our investment while being able to show the most up to date information in their platform.

In summary, over the course of multiple demonstrations, OpenGov demonstrated the following key capabilities:

- Allow creation of yearly Budget by user Departments, outside of Accufund to be imported back into Accufund when completed.
- A Workforce Planning module that allows staff to easily track and report salary projections across all departments.
- Ease of creation of the final interactive Reports. Ability to display our City Budget online with easy-to-use graphs and data.
- Ability to run multiple "what if" scenario plans that focus on both operating & capital budgets and salary & benefit projections.
- Provide Operational Performance management that includes data from across the City pulled into easy to use, interactive reports & dashboards.
- A partnership to allow the near-real-time display of Accufund data.

PLEASE NOTE: Recent supply chain disruption and tariffs on certain imports are causing price increases for many IT products, with little or no notice, and beyond ePlus' control. As a result, this quote is subject to change without notice, even before the expiration date reflected above. Related manufacturer policy changes may result in orders being non-cancelable and products non-returnable except in accordance with the manufacturer warranty. Please confirm pricing and other restrictions prior to order placement. Unless freight amount is indicated, or is zero, freight will be added to the invoice. Unless Bill-To company is exempt from Sales Tax, it will be added to the invoice. Recognizing that the global pandemic has disrupted operations for many organizations, ePlus will ship products for delivery in accordance with customer's written ship-to instructions and products will be deemed delivered notwithstanding any failure of customer personnel to sign for receipt due to facility closing or otherwise.
